

Assalamu Alaikum and good morning, everyone.

I hope you are all doing well.

I am Anindita Barua, currently serving as the Social Media and Graphics Coordinator of the IEEE Computer Society, Premier University Student Branch Chapter. It is truly a privilege to welcome you all to the second session of the AI/ML Bootcamp 2025: Machine Learning Fundamentals.

Today, we are honored to have with us Mr. Kingshuk Dhar sir, Assistant Professor, Department of CSE, Premier University, and the Mentor of the IEEE Computer Society Premier University Student Branch Chapter.

Our session will begin with the main study topic, conducted by our respected instructor. We are eagerly looking forward to learning new and exciting concepts from him. Afterward, we will have a short Q&A session, followed by a quiz. The top three participants will be awarded certificates and small gifts.

The session will conclude with a token of appreciation being presented to our beloved instructor, and finally, we will wrap up with group photos and refreshments.

I encourage you all to remain patient, attentive, and actively engaged throughout the session so that we can all make the most of this valuable learning opportunity.

Now, without further delay, I would like to warmly invite our respected instructor to begin today's session.

Thank you.
